EXPERIENCE

Champlain College, Burlington, VT   **August 2015 – May 2016**
Network Administrator
- Ran student computer labs on campus for over 500 user accounts, fixing issues as needed
- Updated Active Directory, created GPOs and imaged workstations using WDS
- Devised various methods to automate management of the labs
- Deployed a fully automated and encrypted backup solution for virtual environments using Veeam and PowerShell
- Implemented Splunk as a centralized logging solution for workstations

Hewlett Packard, Sunnyvale, CA   **June – August 2015**
Technical Presales Intern
- Engaged with the Enterprise Security Products sales and engineering teams
- Assembled demo scripts and presentations for HP User Behavior Analytics (UBA)
- Wrote a parser that took login event data from the Google Apps API and sent it into ArcSight Logger using a REST FlexConnector
- Developed my experience in data analysis, security and big data

Champlain College, Burlington, VT   **January – April 2015**
Lab Assistant
- Assisted professors teaching Introduction to Networking and Security (CIT-130)
- Ensured computer labs were prepared for lectures and lab activities
- Created, tested and edited lab exercises to ensure readiness
- Helped students with exercises and answered questions

Gravitas Technology Services, Chicago, IL   **May 2013 – April 2015**
Junior Support Engineer Intern
- Procured and generated proposals for client orders, devised yearly technology budgets
- Worked helpdesk tickets, provided resolutions for clients and audited agreements
- Researched and learned about new solutions and software
- Migrated a majority of client documentation into Gravitas' ticketing platform

Flow Master Fund Management, Chicago, IL   **June – July 2010 – 2012**
IT Support Intern
- Completed an office rerun of network cabling
- Installed servers into datacenter, wiped and zeroed hard drives
- Evaluated various Cisco VoIP phone systems
